Summary

As a Flutter Developer, I have experience creating mobile applications using Dart and Flutter. I have worked on a college project that showcases my proficiency in building user-friendly and efficient mobile apps. In addition, I have a strong background in 3D modeling using Blender, which has helped me develop a keen eye for design and attention to detail. I am committed to delivering high-quality results and continuously expanding my skill set.

Experience

Graduate Management Trainee
TalentServe
Mar 2024 - Present (2 month)

Education

Government Polytechnic College
Diploma of Education, Electrical, Electronic and Communications Engineering Technology/Technician
2017 - 2020

Dr MGR Educational and Research Institute
Bachelor of Technology, Electrical, Electronics and Communications Engineering
2020 – 2024

Projects

➢ Smart Traffic Control System for Emergency Vehicles with Blynk API.
➢ Li-Fi Technology.
➢ Arduino-based humidity controller with mist maker
➢ Smart Door Locking System with NodeMCU.

Skills

Dart • Flutter • Application Programming Interfaces (API) • Blender • Printed Circuit Board (PCB) Design • Linux • Mobile Applications • Figma • Arduino • IOT
